Antenna Project Design

Designed by Wireless Instruments
Outdoor Antenna
with WEiPU IP68 SP series

Located in Poland, Wireless Instruments has specialized in Wi-Fi, LTE, and 5G antennas for more than 15 years. Over the years, with strong design and innovation ability, Wireless Instruments has created a line of products dedicated to outdoor use scenarios antennas.

WHY WEiPU?

In outdoor environments, maintaining a stable connection can be a challenge.

Wireless Instruments uses the *WEiPU IP68 SP series* for outdoor antenna projects as the rugged design and high-level waterproof can keep a stable connection even in harsh environments.

IP68 SP SERIES

Signature products

- Threaded Coupling
- Termination:
 - Solder, up to 60A
 - Crimp, up to 100A
 - Screw, up to 32A
- 500 Times Mating Cycle
- -40°C~+85°C
- Customized All-black Color
