HYPOSTATIC[®]

LOUD SPEAKER

hypostatic.fi

“ Weipu SA20 push-pull plug is a very easy and reliable connector. It also looks very good and fits the design of the speaker. ”

HYPOSTATIC[®]

Founded in 2018 and located in Finland, Hypostatic is specialized in high-end speaker design for small and medium-sized rooms. With its streamlined and stylish look, the SA series is used in the Hypostatic new loudspeaker model. The black shell design of the connector complements the speaker's black appearance quite well.
